Meeting Venue - Milano

[6<sup>th</sup> International Conference "Hypoxia in Medicine"](#)

Welcome to the 6<sup>th</sup> International Conference on Hypoxia in Medicine, which will take place in Milan, September 21-23,2006.

Milan is the capital of the northern Lombardia region, and is the main centre of the Italian Fashion Industry.

Wealthy and cosmopolitan, the inhabitants like nightlife and sport entertainment.

Founded in the seventh century BC by Celts, the city has historical sites, artistic treasures and architectural monuments: among them the Duomo (Cathedral), the Castello Sforzesco (old castle in the city centre), Leonardo da Vinci' s "Ultima Cena" painting.

Milan is a culture-prone city, as demonstrated by its 7 Universities and by the countless number of state and private schools focussing on technology, humanities, arts and science.

Research is highly developed, in different fields, among which medicine and physiology have a very long tradition.

The 6<sup>th</sup> International Conference on Hypoxia in Medicine will offer the possibility of an update on the most recent progress in the research and in the development of technology on this issue.

**6<sup>th</sup> International Conference "Hypoxia in Medicine"  
Congress Committees**

**Scientific Committee**

Prof. Dr. Gianfranco Parati, University Milano-Bicocca, Milan, Italy Prof. Dr. Giuseppe Mancina, University ofMilano-Bicocca, Milan, Italy Prof. Dr. Giuseppe Miserocchi, University ofMilano-Bicocca, Milan, Italy Prof. Dr Paolo Cerretelli, University ofMilano, Milan, Italy Prof. Dr. Elena Tkatchouk, Hypoxia Medical Academy, Moscow, Russia Prof. Dr. Igor Ehrenbourg, Hypoxia Medical Academy, Moscow, Russia Prof. Dr. Fred Downey, University ofNorth Texas Health Science Center, Fort Worth,

TX, USA Prof. Dr. Karel Rakusan, University of Ottawa, Canada Prof. Dr. Martin Burtscher, University of Innsbruck, Austria

### **Organizing Committee**

Prof. Dr. Gianfranco Parati, University Milano Bicocca, Milan, Italy Prof. Dr. Giuseppe Mancia, University of Milano-Bicocca, Milan, Italy Dr. Davide Susta, Istituto Auxologico Italiano, Milan, Italy Dr. Elena Korovina, Hypoxia Medical Academy, Moscow Dr. Licia Pietrobon, Istituto Auxologico Italiano, Milan, Italy

### **General Information**

Main topic of the conference Effects of intermittent hypoxia on cardiovascular parameters in health and diseases

#### Travel Connections

Milano has two International Airports:

Milano Linate, 15 min by taxi from city center, which is easily reachable by direct public transport (F) or taxi (about 20 minutes).

Milan-Malpensa, the larger intercontinental airport, which is located 48 km northwest of Milan downtown and linked to the center of Milan by a shuttle train service (Malpensa Express) running every 30 min. The trip lasts 40 min. Taxi service is available (one way to downtown is more or less 9~).

#### General Informations

Dr. Licia Pietrobon
